Environmental Health & Safety

HANDS-ON EMERGENCY EQUIPMENT TRAINING

Available for students, faculty, and staff.

Join the hands-on training offered by the CSN Environmental Health & Safety Department (EHS) to learn the basics of operating a **fire extinguisher** (simulated), **Automated External Defibrillator (AED)**, and **Stop-the-Bleed Kit**.

Stop by the **Student Union, Room 130**, between **11 am and 1 pm** on the following dates:

West Charleston Campus	Henderson Campus	North Las Vegas Campus
February 20, 2026	March 27, 2026	April 10, 2026

Participants will have an opportunity to rotate through designated stations at their own pace.

Fire Extinguisher

- How to operate a fire extinguisher (simulator)
- Locations of fire extinguishers on campus
- Fire extinguisher types and their uses
- RACE and PASS methods

Automated External Defibrillator

- How to operate an **AED**
- Locations of AEDs on campus
- AED basics
- Recognition of cardiac arrest
- CPR techniques (chest compressions and rescue breaths)

Stop-the-Bleed Kit

- How to control life-threatening bleeding
- Locations of Stop-the-bleed kits on campus
- Applying pressure to a wound
- Packing a wound to control bleeding
- When to use a tourniquet and how to properly apply it
